Scheduled Downtimes and Closures

February 28 - March 3

As we prepare to fully merge the strengths of our two credit unions, keeping account transitions as seamless as possible is our top priority. In order to bring our data and systems together, our branches, phones and online banking access will be temporarily unavailable. Please review the dates below and plan your banking activities in advance.

Downtime Begins	Service Impact
Friday, Feb 28 at 5pm	Phones, chat and branches will close early and remain unavailable until Tuesday, March 4 at 9am
Friday, Feb 28 at 6pm	Online & Mobile Banking access will be unavailable until Tuesday, March 4 at 9am

All systems will be back online and available on Tuesday, March 4 at 9am.

During merger weekend (2/28 - 3/03), all credit cards will continue to work, and you'll also be able to withdraw funds via ATM. While we do not anticipate service interruptions, there is a possibility that some merchant-specific debit card purchases requiring a PIN may not go through over merger weekend. If this occurs, you may still be able to complete your transaction by selecting "Credit" instead of "Debit". Note that cards you've frozen using the Card Management feature will remain frozen throughout the weekend.

Digital Banking

Online Banking

Beginning on March 4, you'll log in **using your same username and password as you do today**. If you have issues logging in, please use the "Forgot Password" link to reset your password.

All of your transfers, payments, bill payments & payees, and external accounts will remain intact.

Mobile Banking

Beginning on March 4, you'll need to complete a few simple steps:

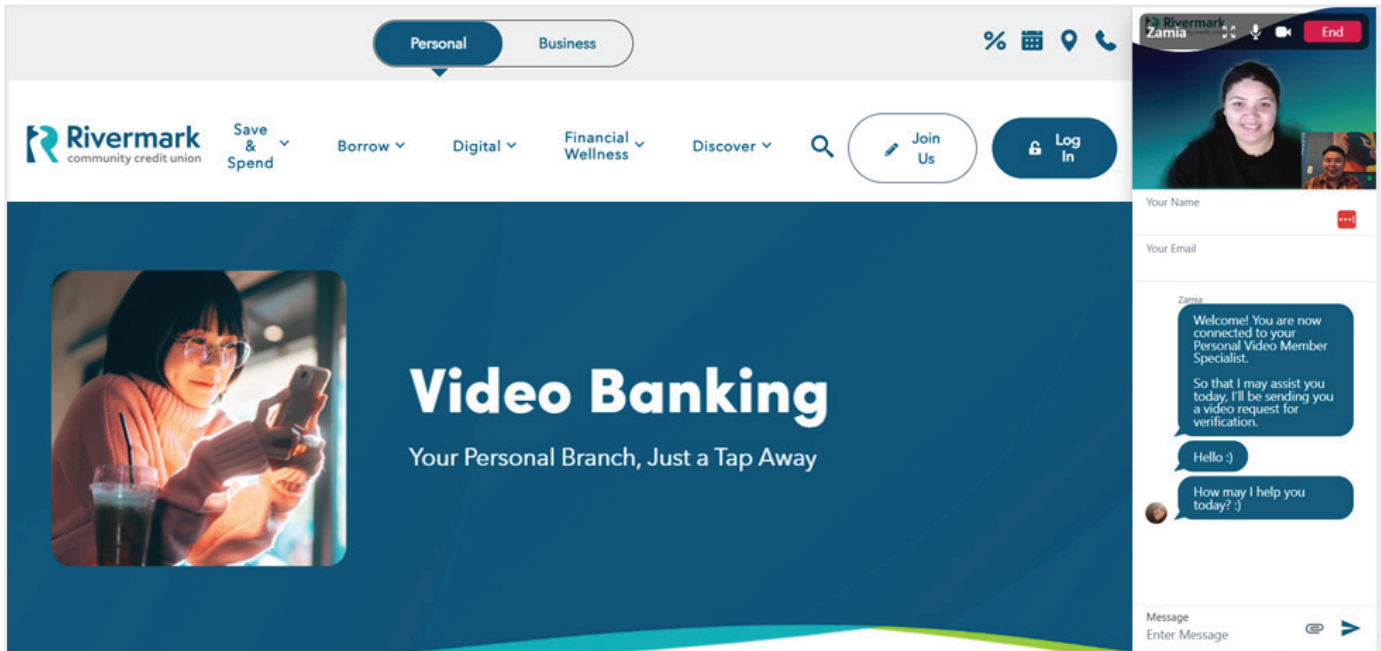

- If you do not have automatic app updates turned on, you'll need to manually update the app on your mobile device once the app is released by the Apple App or Google Play stores.
- If you do not currently have the app on your mobile service, please download the new Online Banking app once it's available in the Apple App or Google Play stores.

Download the app once it's available 

Video Banking and Chat

Our chat service will be available on our website, in online banking, and through the mobile app. You can also book video appointments directly from our [website](#).

Your Accounts

Member Numbers and Account Numbers

Beginning March 4, you will have a new member number. Your member number is the unique number assigned to you when you joined the credit union.

The number '8' will be added to the beginning of your original member number (and possibly additional zeros) to form a new eight-digit number.

For example

- If your original member number is 1234567, your new member number will be 81234567.
- If your original member number is 1234, your new member number will be 80001234.

Your savings and checking account numbers that you see in your statements and in Digital Banking will reflect your new member number. Find your new member number in the Digital Banking dashboard under the account name.

Checks, Direct Deposit & Automatic Payments

Checks

Your checks (both outstanding and future checks you write) will continue to work as they do today. The account number that appears on the bottom of your checks is NOT changing. This is also referred to as the “Electronic Transfers” number in Account Details in Digital Banking. New check orders will use the new Rivermark routing number and your current ‘Electronic Transfers’ number. **There is no action you need to take at this time.**

Electronic Payments & Deposits

Existing Payments & Deposits

Your established electronic ACH transactions, deposits, payments, and Bill Pay payments will continue to post as they do today. **There is no action you need to take at this time.**

NEW Payments & Deposits on or after March 4

Beginning March 4, all new (not currently set up) electronic ACH deposits, payments and wire transfers must use the new Rivermark routing number and account numbers.

To set up a NEW electronic payment or deposit on or after March 4 you will need two important numbers:

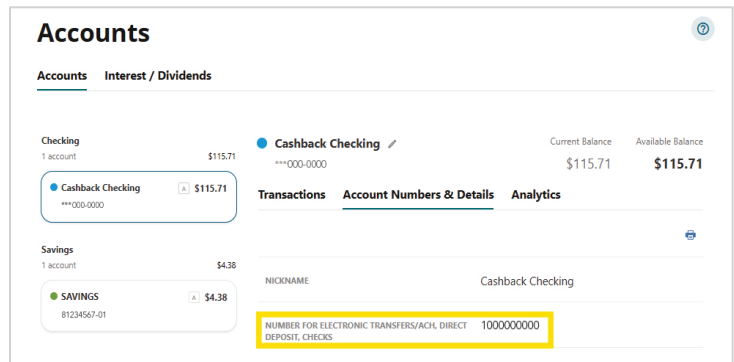

1. The New Rivermark Routing Number: 323076012

The routing number appears in the footer of the Rivermark website and in the footer of Digital Banking

2. The Electronic Transactions Number:

The unique number for your savings or checking account that can be found in Digital Banking. Here is how to find it after March 4:

1. Click on the desired savings or checking account from the Dashboard
2. In desktop, select the Account Details tab above transaction history; in the mobile app, select Show Details in the upper right corner
3. Use the number in the field listed below:
 - A. Checking accounts: “Number for Electronic Transfer/ACH, Direct Deposit, Checks”
 - B. Savings accounts: “Account Number” field

Consumer Checking Accounts

Rivermark will continue to offer an interest earning checking account, which will now be called Rewards Checking.

Fusion Checking, Interest Checking and Platinum Checking accounts will all convert to the new Rewards Checking account.

Cashback Checking and Free Checking accounts will convert to the new Cash Back Checking account.

There will be no changes to the Access Checking, HSA Checking, or Start Checking accounts.
